Health Advisory		EPA EV-Research- Research Products	Taxonomy			
Definition 1: EPA document that provides guidance and information on contaminants that can affect human health and that may occur						
in drinking water, but which EPA does not currently regulate in drinking water. [Drinking Water Glossary 2009]						
Definition 2: Provides information on contaminants that can cause human health effects and are known or anticipated to occur in						
drinking water. EPA's health advisories are non-enforceable and non-regulatory and provide technical information to states agencies						
and other public health officials on health effects, analytical methodologies, and treatment technologies associated with drinking						
water contamination. EPA's health advisory level for PFOA and PFOS offers a margin of protection for all Americans throughout their						
life from adverse health effects resulting from exposure to PFOA and PFOS in drinking water.[EPA Drinking Water Health Advisories						
for PFOA and PFOS at https://www.epa.gov/ground-water-and-drinking-water/drinking-water-health-advisories-pfoa-and-pfos]
