Subject: Dioxin Interagency Draft Report Comments

Hi,

Please find a few comments below for your consideration regarding the Dioxin Interagency Draft Report in the context of openness and transparency. My apologies for not sending these in on Friday.

1. What was the public response to the Nov. 2008 Federal Register notice requesting submission of new/missing dioxin studies? No where in the draft report does it state the response.
2. Has EPA funded any of the studies it cites or has included in the literature survey? For openness and transparency, it would be helpful to know if any preferential treatment (or not) was being given to such studies.

Best,
Kimberly
