Re: Final HPV Submission for TNPP (CAS No. 26523-78-4)

Dear Mr. Hernandez:

On behalf of the Phosphite Manufacturers Consortium (PMC), attached please find the final submission for tris(nonylphenyl) phosphite (TNPP; CAS No. 26523-78-4) under the US HPV Challenge Program. The attached IUCLID dossier was prepared by France, based on input from the TNPP producers, as part of the ongoing assessment of the substance under the European Union Existing Substance Regulation. As such, the attached dossier is more comprehensive than the typical submissions required by the US HPV Challenge Program.

The Consortium views its HPV commitment for TNPP as complete following its review of the available data; the development and submission to EPA of robust summaries and a test plan; the conduct of additional studies to fill data gaps; and, the development and submission of updated materials following completion of the test program.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Robert J. Fensterheim
Executive Director
