Subject HPV Program Final Robust Summary Document and Completed Test Plan For CAS# 142-22-3

Great Lakes Chemical Corporation (GLCC) and PPG Industries, Inc. are pleased to submit the Final Revised Robust Summary and completed Test Plan for Carbonic acid, oxydiethylene diallyl ester (CAS# 142-22-3). GLCC and PPG have now provided data for all of the SIDS endpoints, as outlined in the HPV Program, for this chemical and thus have completed our commitment for this chemical in the HPV Challenge Program. GLCC and PPG have also reviewed all the comments that were received and we believe that there is adequate environmental fate, ecotoxicity, and health effects data available for this chemical. We wish to thank the EPA for their comments and assistance.

Sincerely,

Richard Henrich
