

## SCC Points of Contact

If you have questions about which SCC code to use or want to make a request for an SCC to be created, modified or retired, please send an email to a point of contact and provide as much of the following information as possible so that we may expedite your request:

1. Your name, affiliation, phone number and email address where you can be reached with a reply.
2. If you are referring to an existing SCC, then provide the SCC code number and 4 level descriptors, plus any other descriptions.
3. If you are unsure of the SCC number or are requesting a new code please provide as much detail as possible about the process such as whether it is an industrial process, combustion, event, mobile source, and the type of fuel, chemical substance, and equipment involved.

Choose your point of contact by source and submission type.
