

## Terminology Services - Vocabulary Catalog List Detail Report

Term
Carbon Sequestration
Definition: The uptake and storage of atmospheric carbon; for example, in soil and vegetation.
High-Grade
Definition: Generally refers to white or cream-colored paper recovered from offices, homes, schools, and other sources. Includes used copy paper, stationery, and old books. Equivalent to Institute of Scrap Recycling Industries, Inc. (ISRI) < <a href="http://www.isri.org/">http://www.isri.org/</a> > specifications for "sorted office paper" and "sorted white ledger."
Mill Broke
Definition: Any paper waste generated in a paper mill prior to completion of the papermaking process. It is usually returned directly to the pulping process. Mill broke is excluded from the definition of "recovered fiber."
Mixed Paper
Definition: Generally refers to paper of various grades, colors, finishes, and coatings mixed together.
Paper Stock
Definition: Term used in the paper recycling industry; equivalent to "recovered paper" or "waste paper."
Postconsumer Recovered Fiber
Definition 1: Paper, paperboard, and fibrous wastes from retail stores, office buildings, homes, and so forth, after they have passed

Term
through their end-usage as a consumer item, including: used corrugated boxes; old newspapers; old magazines; mixed waste paper; tabulating cards; and used cordage. Definition 2: All paper, paperboard, and fibrous wastes that enter and are collected from municipal solid waste. Postconsumer fiber does not include fiber derived from printers' over-runs, converters' scrap, and over-issue publications.
Postconsumer Recovered Paper
Definition 1: Paper, paperboard, and fibrous wastes from retail stores, office buildings, homes, and so forth, after they have passed through their end-usage as a consumer item, including: used corrugated boxes; old newspapers; old magazines; mixed waste paper; tabulating cards; and used cordage. Definition 2: All paper, paperboard, and fibrous wastes that enter and are collected from municipal solid waste. Postconsumer fiber does not include fiber derived from printers' over-runs, converters' scrap, and over-issue publications.
Recovered Fiber
Definition 1: Postconsumer fiber such as: Paper, paperboard, and fibrous materials from retail stores, office buildings, homes, and so forth, after they have passed through their end-usage as a consumer item, including: used corrugated boxes; old newspapers; old magazines; mixed waste paper; tabulating cards; and used cordage; and all paper, paperboard, and fibrous materials that enter and are collected from municipal solid waste. Definition 2: Manufacturing wastes such as: Dry paper and paperboard waste generated after completion of the papermaking process (that is, those manufacturing operations up to and including the cutting and trimming of the paper machine reel into smaller rolls or rough sheets) including: envelope cuttings, bindery trimmings, and other paper and paperboard waste resulting from printing, cutting, forming, and other converting operations; bag, box, and carton manufacturing wastes; and butt rolls, mill wrappers, and rejected unused stock; and repulped finished paper and paperboard from obsolete inventories of paper and paperboard manufacturers, merchants, wholesalers, dealers, printers, converters, or others.
Recovered Paper

Definition 2: Manufacturing wastes such as: Dry paper and paperboard waste generated after completion of the papermaking process (that is, those manufacturing operations up to and including the cutting and trimming of the paper machine reel into smaller rolls or rough sheets) including: envelope cuttings, bindery trimmings, and other paper and paperboard waste resulting from printing, cutting, forming, and other converting operations; bag, box, and carton manufacturing wastes; and butt rolls, mill wrappers, and rejected unused stock; and repulped finished paper and paperboard from obsolete inventories of paper and paperboard manufacturers, merchants, wholesalers, dealers, printers, converters, or others.</p>
Recycled-Content Paper
<p>Recycled Paper</p> <p>Definition: EPA does not defined this term. According to the Federal Trade Commission's (FTC) Guides for Environmental Marketing Claims, a paper can be called "recycled" only if it contains 100 percent postconsumer recovered fiber. If the postconsumer content is less than 100 percent, the paper should be called "recycled-content" paper.</p>
<p>Recycling Rate</p> <p>Definition: <math>\text{Recycling rate} = \frac{\text{Total recycled (by weight)}}{\text{Total recycled (by weight)} + \text{total discarded (by weight)}}</math></p>
Sorted Office Paper

## Terminology Services - Vocabulary Catalog List Detail Report

Term
Sorted White Ledger
Virgin Fiber
Definition: Refers to cellulose fiber derived directly from trees and other plants that is newly pulped, previously unused.
Virgin Paper
Definition: Refers to cellulose fiber derived directly from trees and other plants that is newly pulped, previously unused.
Waste Paper
